Training Workshop for Iraqi Women:

“Building Skills in Conflict Management and Resolution”

Madrid, Spain, May 7-11 2007

Fundación Rafael del Pino, C/Rafael Calvo 39, Madrid

Conducted by:

George E. Irani PhD., Director of the Africa and Middle East Programme (CITpax), with the collaboration of

Shireen Dajani, Programme Assistant, (CITpax),

Amina Goyani, Iraqi al- Amal Association and

Monica Martinez, Consultant (CITpax),

Sponsored by:

The Spanish Ministry of Education and Science

Rationale
The Toledo International Centre For Peace (CITpax), in cooperation with its Iraqi partner “al-Amal Association” and “Fundación Del Pino” organises this workshop within the framework of its core mission to contribute to the resolution of conflicts and peace building, while fostering the respect for human rights and democratic values.

As a follow up to the training workshop that CITpax held in cooperation with the Iraqi al-Amal Association in Sulamaniyyah (Northern Iraq) from 22-26 of July 2006, the purpose of the workshop is to strengthen Iraqi women’s role, as an essential component of the Iraqi civil society, in conflict management and resolution, advancing thus gender equality in the context of peace and security. Established international norms and standards promote indeed the protection of women during armed conflict and their participation in peace and security decision making in conflict and post conflict situations 1.

The training workshop aims therefore at empowering a group of Iraqi women, carefully identified in close cooperation with the Iraqi al-Amal Association, and representing from various regions of Iraq, different professional backgrounds, religious and ethnic groups, so that they will become trainers themselves in their own country (“to train the trainers”).

The workshop will analyse and apply conflict resolution techniques fostering a common approach to conflict prevention and resolution. It will focus on developing the intellectual and practical skills necessary for managing and resolving conflicts.

Workshop Format

The training sessions from Monday to Friday (7-11 May 2007) will address the definition of conflict, the root causes and conditions of conflicts, multicultural approaches to conflict resolution, communications skills, group facilitation and collaborative problem solving, culture, mediation, and negotiation techniques.

Moreover, a series of afternoon open conversations will be devoted to an informal exchange of views with the participation of Spanish experts on the following topics:-

1: “Current Situation of Iraqi Women”

2: “Women, Conflict, Peace and Security. The role of Women in Conflict Prevention and Resolution”

3: “Special Session on Spanish Women and Democratic Transition”

1 The two critical sets of standards are the Security Council Resolution 1325 (2000) and the Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW)
Training Workshop for Iraqi Women:
